Adobe Illustrator CS3 Level 1 & 2

Course Description:

Adobe Illustrator is a graphic program designed to create line art. It will allow the user to create, edit and format text, and graphics or edit existing graphics. The tools used are similar to other Adobe products and uses an interface that remains common throughout.

Text:

No text is required for this course. All materials are provided by the Instructor.

Suggested Prerequisites:

This course assumes that students have a basic understanding of the Microsoft Windows or Macintosh keyboard, use of the mouse, opening, closing, and saving files.
