PrintShop 2 for Mac

Kristine DeNunzio
denunzk@ocps.net

Course Description:

This course overviews Software MacKiev's PrintShop 2 for Mac application. With 32 project types, including greeting cards, online greetings, banners, certificates, letterhead, envelopes, labels, newsletters, pamphlets, calendars, photo pages and more... this program is "Desktop Publishing for the rest of us!"

Text: No text is required for this course. All materials will be provided by the instructor.

Suggested Prerequisites: None.

Topics to be addressed:

Students work along with the instructor, using provided sample files, and are guided, step-by-step, to learn the various features of the program.

Class time includes:

- Overview of the interface
- Understanding of the various palettes and tools
- Learn to modify some of the over 9,500 existing templates
- Create projects from scratch on your own
- Inserting graphics from a variety of sources, including Apple's iPhoto
- Learning how to save and share in a variety of formats

*The instructor reserves the right to modify this course outline at any time.
