iTunes & iPod

Kristine DeNunzio
denunzk@ocps.net

Course Description:

This course overviews Apple's iTunes application, which is part of the iLife suite of programs. It is also available as a free download from <http://www.apple.com/itunes> and is available for both the Macintosh and Windows platform.

This course also covers the basics of using your iPod. Students can bring in their own iPod and work along with the instructor, as well as watch demos of advanced features.

Text: No text is required for this course. All materials will be provided by the instructor.

Suggested Prerequisites: None.

Topics to be addressed:

Students work along with the instructor, using provided sample music, and are guided, step-by-step, to learn the various features of the program.

Class time includes:

iTunes:

- Listening to and importing audio CDs
- Creating playlists
- Burning CDs
- Listening to iTunes radio
- iTunes music store
- Subscribing to podcasts
- Discussion of iPod integration

iPod

- Learning the basic menus on iPod
- Working with navigating the menus
- Changing preferences and settings
- Extras, such as Games & Clock
- Adding Notes to your iPod
- Photo Slideshows (video iPods only)
- Discussion of iPod accessories
- Support options

*The instructor reserves the right to modify this course outline at any time.
