Digital Photography Camp
Wendy A. Gonzalez
wendy@wendygonzalez.com

Course Description:

Digital photography is an important tool for storytelling and documenting events and thanks to technology; it gives instant access to your images. Learn how to take better photographs and be able to interpret the story behind the pictures.

Campers will receive basic instruction in photo composition and lighting and learn to photograph people and still life objects. We will use the beautiful surroundings of Avalon Park as a backdrop for photos projects, so be prepared for the outdoors.

Materials needed:

Digital camera with removable media card	Sunglasses
Comfortable clothing and shoes (we will be walking around)	Bottled water
	Snacks

Suggested Prerequisites:

Students must know how to use their digital camera.

Images must be deleted from card before class.

Know how to use a computer, as we will be uploading images for viewing.

Topics to be addressed:

- Framing: subject, shapes, space, composition
- Angle: up, down, straight
- Pan: forward, left, right
- Distance: close, medium, far
- Level: eye level, high, low
- Focus: soft, sharp
