Digital Scrapbooking using Photoshop Elements

Hanne Krawczyk

Course Description:

Capture a moment and preserve it in a layout. Digital scrapbooking does the entire process on your computer, using photo editing software packages. You still work with a background piece of paper, various elements, letters and such, but now they are all digital pieces that you assemble on your computer screen.

This course assumes that students know the basics of Photoshop Elements

Text:

No text is required for this course. All materials will be provided by the instructor.
